1) PROJECT INFORMATION

Field of expertise related to the topic: Extensive research expertise in the field of Gender, notably through the GEDI project (<http://gedi.hypotheses.org/>). Moreover, the University of Angers has a dedicated Gender Equality Vice-President at its governing level.

Potential contribution to the project: Enhanced gender balanced distribution and success of male and female students to the underrepresented sectors (whenever underrepresented by man e.g. Biologie and Medicines or women e.g. Information and Communication Technologies). We intend to put in place a Gender Equality Plan for further improving the career evolution of female Professors, Scientists and the overall university staff. These two objectives will be achieved through the involvement of researchers in the analysis of current situation concerning gender equality, analysis of the legal framework, identification of improvement measures and development of performance indicators. Gender equality measures, including positive actions to promote female representation, will be implemented at the university governance level.

Role in the project:

Research Dissemination Other
 Training Technology Development

Project idea: Positive actions for promoting gender equality in unbalanced education/research fields, as well as in decision making.

Project description: To put in place an Action Plan built through the real definition of the gender equality: diagnosis, indicators, progress follow-up, evaluation of the selected positive measures.
